

João Caseiro

My name is João Caseiro and I'm a CAP resident in Porto, Portugal. Being a member of ANIPIA (Associação Nacional de Internos de Psiquiatria da Infância e da Adolescência) I am concerned and committed with the improvement of the quality and visibility of the CAP training programs in Portugal. We believe this is only possible with a strong national organization who represents and is in contact with all the trainees and is recognized as a key partner by all the national institutions who play a role in CAP training not only from a clinical perspective but also from a political one.
