

Amelie Kjellstenius

My name is Amelie Kjellstenius and I'm a CAP resident in Gothenburg, Sweden since september 2014. I'm a board member of the Swedish NTA called STP and GM-Exchange Coordinator in EFPT as well as the Chair of the Exchange WG. I strongly believe that we have everything to gain by sharing knowledge and broaden our perspectives to move forward in CAP in Europe and beyond. CAP is a small highly specialized part of the health care system which makes it even more important to get input from a larger set of colleagues than what is possible in small countries like Sweden. Happy to be part of the WG and network!
